Thank you for your interest in our 2023 3rd annual Benoit Angus female sale. We are excited to provide to you these females. In our sale offering, we will have 13 spring calving pairs with heifer calves, 14 fall heifers that are ready to breed and 44 spring heifer calves.

We feel this past year's calf crop is as good as we have ever produced. We don't have the grass to keep as many heifers for replacements as we would like so this sale is full of top quality replacements that will work well for you. These heifers have been DNA tested with the Angus GS. This is a super looking group of heifers that are out of cows and heifers that we admire and love so much.

We welcome you to visit us before the sale and we can show you the heifers selling but also the dams that raised them. The sale will be broadcast on Liveauctions.tv, where you can bid if you can't make the sale and videos of each female in the sale will be available for your viewing. Again, thanks for your interest in our November sale and we look forward to seeing you on the 16th.

Thank you for your interest in our program!
